REPORT OF THE BOARD STRATEGIC COMMITTEE ON LEGISLATION

The Legislative Committee heard presentations to bring members up to speed on NEA's legislative agenda and provide a forum for input into the Association's federal work. The Committee received briefings on the status of legislation in Congress related to many issues including education funding, retirement security, health care, civil rights issues, vouchers, tax reform, and the new political landscape under President Trump. The Committee received an in-depth briefing from Director of Human and Civil Rights Harry Lawson on the Policy Statement on Discipline and the School-to-Prison Pipeline.

The Legislative Committee reviewed the Legislative Program to ensure it is in line with NEA's governing documents. As part of the review, the Committee adopted changes to align the Program with the recently passed Policy Statement on Discipline and the School-to-Prison Pipeline. Specifically, the Committee adopted changes regarding nondiscrimination, educator training, discipline and the school-to-prison pipeline.

On April 29, 2017, the NEA Board of Directors voted to recommend the proposed Legislative Program to the 2017 NEA Representative Assembly.

LEGISLATIVE PROGRAM FOR THE 115TH CONGRESS

Preamble

NEA works to fulfill the promise of a democratic society by promoting the cause of quality public education; advancing the education profession; expanding the rights and furthering the interests of education employees; and advocating human, civil, and economic rights for all.

The NEA Representative Assembly, through adoption of the Legislative Program, sets forth the federal legislative policies that facilitate accomplishment of the strategic objectives in pursuit of the Association's mission.

NEA is committed to excellence in education through a true partnership of the federal, state, and local levels of government. NEA continues to work with its affiliates to advance NEA's strategic priorities: quality public education for every student; ensuring the highest possible teacher and education support professional quality; supporting school system capacity; building public, parental, and business support for public education; strengthening association capacity building; and providing administrative services and program support.

NEA members are central to educational excellence, and their compensation, status, and personal economic security must be significantly upgraded. NEA seeks provision of federal resources and programs to assist state and local governments with education reform and with their responsibility to enhance educational excellence and to assure equal equitable educational opportunity as well as to assist in the provision of resources for the maintenance and operation of public schools, colleges, and universities.

NEA also seeks adequate protection and enforcement of civil and human rights and preservation and advancement of good public policy in pursuit of racial and social justice. NEA supports federal legislation consistent with its principles in these areas and strongly opposes legislation detrimental to these goals. NEA is engaged in a campaign to preserve and promote public education in the United States. This campaign includes an Action Plan to ensure "Great Public Schools for Every Student." NEA will advance the Legislative Program to the maximum degree possible and work to improve current laws governing elementary and secondary education.

The Legislative Program has been grouped in the following manner:

- I. High Quality Public Education—legislative issues designed to address the many factors that impact the quality of public education directly in the classroom or school
- II. Supporting Student Learning, Growth, and Development—legislative issues intended to create the best possible conditions for all children in support of both their development and education
- III. A Voice in the Workplace—legislative issues linked directly to some of the most basic employee issues faced by all education employees
- IV. Good Public Policy—legislative issues related to ongoing concerns of national importance to both NEA members and the rest of the nation
